specialises in the production of racks, trolleys, pallets, baskets and other steel structures used for storing and transporting various raw materials, semi-finished and finished products, in particular in the window, glass, door, transport and other industries. We comprehensively implement both short and long production runs according to customer demand.

Our experience and the high quality of the offered constructions are confirmed by the qualification certificate of the Welding Institute in Poland. All products are manufactured only from certified materials of the first grade and are CE certified.

## Sample products presentation:

### Stacking rack STLP 1300 x 745 x 1060 mm

Designed for transporting glass and insulating glass units

- Painted in any RAL colour or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal
- Stackable (two safety poles included)

Overall dimension (mm)				
Height	Width	Length	Capacity	Weight
1300	745	1060	500 kg	38 kg

### Rack type STL 1700 x 800 x 1350 mm

Designed for transporting glass, windows, doors, etc.

- Painted in any RAL colour or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal
- Ears under a forklift truck

Overall dimension (mm)				
Height	Width	Length	Capacity	Weight
1700	800	1350	1000 kg	47 kg

## Rack type STL 1400 x 800 x 1500 mm

Designed for transporting glass and insulating glass units

- Painted in any color according to RAL pattern or hot-dip galvanized.
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears.

Overall dimensions (mm)				
Height	Width	Length	Capacity	Weight
1400	800	1500	1000 kg	46 kg

## Rack type STL 2000 x 800 x 1650 mm

Designed to transport glass, insulated glass and windows, doors, etc.

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Ears under forklift.

Overall dimensions (mm)				
Height	Width	Length	Capacity	Weight
2000	800	1650	1000 kg	73 kg

## Rack type STL 1800 x 1000 x 1800 mm

Designed to transport glass, insulated glass and windows, doors, etc.

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears.
- Additional reinforcing beams on the bottom.

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
1800	1000	1800	2000 kg	65 kg

## Rack type STL 2265 x 800 x 1350 mm

Designed to transport glass, insulated glass and windows, doors, etc

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears.

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
2265	800	1350	1500 kg	74 kg

## Transport and storage cart STL 2500 x 800 x 2270 mm

Designed to transport glass and glazing

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- The cart has 6 wheels for easy mobility

Overall dimensions(mm)				
Height	Width	Lenght	Capacity	Weight
2500	800	2270	1000 kg	86 kg

## Transport and storage cart STL 1826 x 800 x 1200 mm

Designed to transport glass and glazing

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal
- The cart has 4 wheels for easy mobility
- Height of the cart given including wheels
- Loading height: 1500 mm

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Wieght
1826	800	1200	1200 kg	60 kg

## Rack type STL 2080 x 800 x 2000 mm

Designed for transportation and storage of windows, doors, etc.

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears.

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
2080	800	2000	1500 kg	89 kg

## Rack type STL 2245 x 1170 x 2000 mm

Designed for transportation and storage of windows, glass, etc..

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears.
- Ears for HDS

Overall dimensions(mm)				
Height	Width	Lenght	Capacity	Weight
2245	1170	2000	1200 kg	81 kg

## Rack type STL 800 x 920 x 1600 mm

Designed for transportation and storage of window sills, chipboard, etc.

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Ears for HDS.

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
800	920	1600	500 kg	55 kg

## Rack type STL 900 x 1000 x 1350 mm

Designed for transportation and storage of window sills, chipboard, etc.

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears.

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
900	1000	1350	500 kg	61 kg

## Rack type STA 1454 x 780 x 2000 mm

Designed for the transportation and storage of glass, windows, glazing, doors, etc..

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears
- Ears under a crane or overhead crane
- In addition, poles for tie-down straps

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
1454	780	2000	1500 kg	114 kg

## Rack type STA 2385 x 1170 x 1860 mm

Designed for the transportation and storage of glass, windows and insulated glass units

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears
- Ears under a crane or overhead crane
- On the bottom, perforated profiles for safety poles.

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
2385	1170	1860	1500 kg	146 kg

## Rack type STA 2500 x 1200 x 2200 mm

Designed for transportation and storage of windows, doors, etc.

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Ears for forklift and crane handle

Overall dimensions (mm)				
Height	Width	Length	Capacity	Weight
2500	1200	2200	2000 kg	127 kg

## Rack type STA 2200 x 800 x 2090 mm

Designed for transportation and storage of windows, doors, etc.

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- Possibility of using forklift ears
- Possibility of welding crane handles.

Overall dimensions (mm)				
Height	Width	Length	Capacity	Weight
2200	800	2090	1000 kg	125 kg

## Cart for profiles and long elements 2000 x 780 x 2200 mm

Designed for transport and storage of profiles and other products

- Painted in any color according to RAL pattern or hot-dip galvanized
- Profile poziome wypełnione uszczelką gumową
- Equipped with polyamide, rubber or polyuterane swivel wheels according to customer needs.

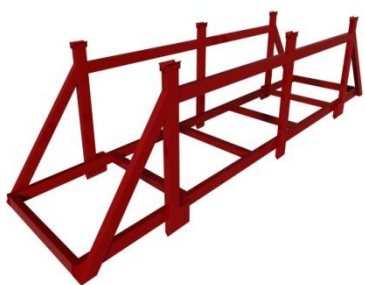

Overall dimensions (mm)			
Height	Width	Lenght	Weight
2200	780	2000	65 kg

## Transportation pallet 3500 x 800 x 665 mm

Designed to transport and store profiles and other long products

- Painted in any color according to RAL pattern or hot-dip galvanized
- Stackable.

Overall dimensions (mm)			
Height	Width	Lenght	Weight
665	800	3500	65 kg

## Transport and storage cart STA 2100 x 1200 x 2000 mm

Designed to transport glass and glazing

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- The cart has 4 wheels for easy mobility

Overall dimensions (mm)				
Height	Width	Lenght	Capacity	Weight
2100	1200	2000	1000 kg	100 kg

## Transport and storage cart STA 1300 x 700 x 1500 mm

Designed to transport glass and glazing

- Painted in any color according to RAL pattern or hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- The cart has 4 wheels for easy mobility
- Height of stroller given including wheels
- Loading height: 1000 mm

Overall dimensions(mm)				
Height	Width	Lenght	Capacity	Weight
1300	700	1500	1000 kg	56 kg

## Rack type A 2280 x 800 x 2200 mm

Designed for the transportation and storage of glass, windows, glass, etc.

- Hot-dip galvanized
- Horizontal and vertical profiles filled with rubber seal.
- It has ears for a forklift and handles for a crane or overhead crane.

Overall dimensions (mm)				
Height	Width	Length	Capacity	Weight
2280	800	2200	1800 kg	127 kg

## Transport and storage pallet 1000 x 800 x 1400 mm

Designed to transport and store profiles and other long products

- Painted in any color according to RAL pattern or hot-dip galvanized
- In addition, poles that allow stacking.

Overall dimensions (mm)				
Height	Width	Length	Capacity	Weight
1000	800	1400	800 kg	50 kg

# CERTYFIKAT

nr TNP-3834-0149-2021

**TÜV NORD Polska Sp. z o.o.**

zaświadcza, że przedsiębiorstwo

**SZAR S.A.**

**ul. Druciana 1**

**PL 42-280 Częstochowa**

spełnia wymagania jakości w spawalnictwie na podstawie normy

**PN-EN ISO 3834-2:2007**

Przedsiębiorstwo posiada wyposażenie zakładowe, wykwalifikowany personel oraz technologie spawania zapewniające właściwą produkcję i kontrolę wyrobów spawanych.

Zakres certyfikacji określono w załączniku do niniejszego certyfikatu.

Certyfikat jest ważny do **13.09.2024**

Katowice, 14.09.2021
